

## DUNC BENCHES

### Product description

The modern and soft appearance characterises the DUNC series. The round bench is ideal for placing around a tree. The products can easily be placed on ground level using the pre-drilled fixing holes.

In the same series we also have a **picnic set and litter bins**. You can find these at our product categories.

## SPECIFICATIONS

### General

Our benches are always equipped with:

- Mounting holes for fixing to surface
- Warranty 5 years (expiring)

### Standard material

#### Frame material

- Corten steel 10 mm
- Galvanised steel 10 mm + 2 layer powder coating

#### Seat material

- Material: Garapa
- Head sizes: 120x20 mm

### Options

- Moso Bamboo Extreme Seat
- FURNS Concrete footing

## IMPORTANT

### Points of attention

- All products must be unpacked immediately after delivery.
- Every kind of (hard) wood will turn grey under the influence of UV radiation, weather and wind. The final colour depends on the starting colour.
- Wood is a natural product that "works" and will shrink or expand depending on temperature and moisture content.
- Hardwood can turn black when in contact with Corten steel, which will eventually turn gray.
- Corten Steel should never be constantly in moisture, it should drain well and ventilate in all situations.
- Corten Steel products are not (fully) rusted on delivery, we only use Corten steel type S355JOWP.
- Coastal areas: We do not recommend using Corten steel within a radius of 2 km from a coastline.
- During the weathering process rust residue can come off the product, which can result in stains.
- Drilling / grinding in the material is not permitted.

### Maintenance

- Regular cleaning (WOCA exterior cleaner) and sealing (WOCA exterior oil) of the wood ensures that the pigment in the wood is retained longer and the discolouration process is delayed.
- Annual cleaning by removing dirt using clean tap water.

**Note!** Do not use a high-pressure cleaner.

# PLACEMENT

## PLACEMENT

1. Provide a flat, solid (vibrated) surface. If not done carefully, it can create stresses in the product which could result in damage to the product.

2. Mark the position of the holes at the bottom of the DUNC bench and drill holes in the pavement.

3. Place the DUNC bench on the flat pavement, so that the holes in the uprights match the drilled holes.

Because the DUNC bench can be placed on the pavement, the bench can be placed anywhere, without having to dig.

4. Fix the bench to the pavement with plugs or possibly a chemical anchor.

**Pay attention!** Loosely tighten all bolts first, after which they can be tightened one by one.

# ACCESSORIES

## ACCESSORIES

All our accessories meet the highest standards and are an highly suitable addition to our products. Visit [www.furns.com](http://www.furns.com) for a complete overview of our accessories.

### CONCRETE FOOTING

We advise to place our products on our uniform concrete bases. These are suitable for installation below ground level. As standard, they are fitted with screw sleeves for easy mounting of our products. See the table below for the corresponding bases per model.

Product	Model	Concrete footing	Quantity
DUNC 2300	DUBE.2300S	250	2
DUNC 2300 ROUND	DUBE.R2300S	600	3
DUNC 2300 SET	DUPN.R2300	600	3

### CLEANER & PROTECTOR

We recommend cleaning our products at least once a year. For optimal results, use the ADEZZ BIO Cleaner & Protector detergent. Always read the instructions on the package carefully before use.

### CORTEN VARNISH

To stop the rusting process, Corten varnish can be applied on the Corten products. Always read the instructions on the package carefully before use.
