## the fiberstone specialist

We unanimously opt for fiberstone because of its high quality, its lightweight and its low maintenance. All our products are handmade.

## skyhigh stock levels

Due to our large warehouses, one in the Netherlands, one in the USA and one in Vietnam, we are able to deliver large quantities very quickly.

## suitable product for every project

Our product development team is always searching for new shapes, colors, sizes and finishes. We offer endless possibilities to ensure there is always a planter that suits your wishes.

## 14 years of expertise

Our team of product experts is more than happy to assist you, and ensure you know everything you need to know before and after your purchase.

## dutch design **pottery** and more.

Pottery pots is a global brand with Dutch roots, developing and selling high quality planters and related products, from jumbo pottery to small accessories and from glossy to rough finishes.

The company has its headquarter, showroom and warehouse in Aalsmeer, the Netherlands. The North and South American market is operated from our showroom and warehouse in Burlington, New Jersey and our showroom in Atlanta, Georgia; both in the United States of America. We also have a warehouse in Vietnam, from which we ship containers.

Since our foundation in 2008 we aim for an extensive assortment that is based on the belief that design should be available for everyone. That is why we are always looking for the perfect balance between design, quality and price. Every pottery pots product is designed from a simple but clever perspective. We believe in basic forms and shapes, without thinking of it as boring. This no-nonsense way of thinking and designing is assigned to the Dutch identity, and is widely known as 'Dutch design'.

At pottery pots we want every indoor and outdoor space to stand out. To achieve this, we developed a wide selection of lightweight fiberstone planters to make sure we always have a suitable product for your project in stock.

With our 14 years of experience in selling pottery we know how to give you the best advice. We know buying pottery can be a challenge, but we are here to help you. Whether you need to choose your assortment for the next season or you would like to know which planter suits best in your project, our aim is to serve you the best pottery.

Tjcho Schafraad CEO / Founder

Isan Schafraad CFO / Founder

Vice President USA Hayko Schafraad

## **2008**

### **where it all started**

Brothers Tycho and Isan Schafraad establish the Pottery Pots Brand. The first pots and planters are sold from a small garage box in Aalsmeer.

## **2009**

### **international tradeshow**

Pottery Pots participated in the international trade show Trendset in Munich - Germany, for the first time.

## **2010**

### **the first employees**

After two years it is time to hire the first employees. A sales employee is driven to get more sales and answers the questions from the growing customer base. Support is also provided to the administration.

## **2011**

### **added jumbo planters**

The range is expanded with extra-large planters. At Potter Pots we call them jumbo planters. These jumbo's are ideal for the project and (interior)landscaping market.

## **2012**

### **the succesful apple**

The successful apples are introduced. These stylisch cheerful design objects are bestsellers all over the world.

## **2013**

### **Jan des Bouvrie**

A complete collection of furniture, planters and accessories is launched together with Dutch top designer Jan des Bouvrie.

## **2014**

### **move to new location**

Pottery Pots has outgrown the office in Wijdewormer (NL) and moved to a new office with a warehouse of more than 12.000 square meter.

## **2015**

### **expanding to USA**

The company expands to the United States of America. An office, showroom and warehouse based in New Jersey and another showroom based in Atlanta, Georgia.

## **2016** **our first webshop**

The new webshop was launched, customers can now place their orders online.

## **2017** **new identity**

The company's brand identity is examined, which results in a complete re-branding.

## **2018** **10 year anniversary**

Time flies when you enjoy making pottery and more. In 2018, Pottery Pots is celebrating their 10th anniversary!

## **2019** **something unique**

The unique Bohemian collection has been developed. A collection of bamboo and seagrass baskets that have been transformed into a planter by adding a special layer of cement.

## **2020** **new functional webshop**

A strange year in which the Covid-19 virus causes a global crisis. Without the knowledge until when this will last. It was a hectic year but also with some highlights, as we launched our new website and webshop.

## **2021** **the impact of covid-19**

The year covid-19 had more impact than we could ever imagine. The trade shows we always participated were cancelled and visiting clients had never been more difficult. It taught us to stay creative and keep continue building our online shop.

## **2022** **continue to grow and expand opportunities**

After 14 years, we reached many target groups in more than 56 countries. Our account managers are still visiting the customers and the new webshop is a perfect tool to view and order the collections online at anytime. In addition we continue to share inspiration on our fast growing social platforms. We would like to let you know that coming year we will give the end-consumer the option to be connected to one of our online partners through our webshop. This new tool will make it easier for both the customer and the end consumer.

# rough

## fiberclay

The rough collection is the rebellious one of the pottery pots family. With its 'less is more' mentality, the rough collection focuses on the tough character of the pot. The collection, with a fiberclay basis, consists of modern planters with the same characteristic finish in many different colors.

- Made out of fiberclay (cement and glassfibers)
- Way of production is similar to earth and clay productions
- Ideally suited for round shapes
- Indoor and outdoor

have the best selection of planters in your store with our **shop-in-shop** program!

## shop-in-shop

This money and time saving program will make selling Pottery Pots to your customers even easier. You can select different finishes in both small or large sized programs. Depending on your store space there will always be a suitable program.

We offer high discounts (up to 30% on the regular product price) when purchasing multiple programs. If sales are going well, you can easily re-order single products or the full program.

On top of that we also offer the possibility to upgrade to the 'shop-in-shop package', to give your customers the ultimate pottery pots brand experience.

***Ask for our 'shop-in-shop' booklet to view all details about this program.***

# bohemian

## ficonstone

Inspired by travelling and stories, the bohemian collection is a perfect combination of natural colors and crafts. These planters are made with a unique process; traditionally woven baskets are turned into strong planters by using ficonstone on the inside. Due to the natural composition of the material, some color and size variations may occur.

Within the bohemian collection, you can choose between three different looks, each with a different material on the outside that is ecologically responsible:

**bamboo**, **seagrass** and **straw grass**.

### Bamboo

- Handmade and unique
- Strong inside because of the combination of fiberglass and cement
- Pot always remains in perfect shape because it is made of strong material
- Standard waterhole with plug and feet for the best waterdrainage
- Indoor and outdoor

# urban

## ficonstone

We think this would be the outcome when rough meets modern. The urban collection brightens up every space and is an eyecatcher. The medium to outsized planters come in three different well-known pottery pots shapes: the orb, the patt and the charlie. The unique concrete finish is suitable for both outdoor and indoor.

- Made of ficonstone (fiberglass, cement, sand and finely ground stone)
- Budget friendly
- Indoor and outdoor

# natural

## fiberstone

The natural collection is a large collection of basic and design planters all recognizable for their natural finish. All items in this collection are made from the strong material fiberstone. The look and feel is almost indistinguishable from real, even more expensive natural stone. Because of the various sizes there will be a solution for every place.

- Made of fiberglass and 58% finely ground stone (fiberstone)
- Low in maintenance
- Timeless appearance
- High quality
- Lightweight
- Indoor and outdoor

*\* Be aware that 5-year warranty for fiberstone outdoor pots is only valid as long as proper pot feet and drainage holes are used (as described on page 129 at 'TIP').*

**Garden centers** is one of our largest customer groups. That's not surprising, because a garden center has a lot to offer. From plants to pots and from Christmas items to pet food. To distinguish yourself as a garden center, we offer planters and artificial plants for any indoor or outdoor space and for any climate. This is also reflected in the fact that we now serve more than 56 countries around the world.

have the best selection of planters in your store with our **shop-in-shop** program!

## shop-in-shop

This money and time saving program will make selling Pottery Pots to your customers even easier. You can select different finishes in both small or large sized programs. Depending on your store space there will always be a suitable program.

We offer high discounts (up to 30% on the regular product price) when purchasing multiple programs. If sales are going well, you can easily re-order single products or the full program.

On top of that we also offer the possibility to upgrade to the 'shop-in-shop package', to give your customers the ultimate pottery pots brand experience.

***Ask for our 'shop-in-shop' booklet to view all details about this program.***

# ridged

## ficonstone

The ridged collection is a classic collection with round shaped pottery and planters available in various sizes. The pots have a finely ribbed surface, which makes them sturdy yet elegant classics. The characteristic planters from the ridged collection are made of ficonstone and can be used both indoors and outdoors.

- Made of fiberglass, cement, sand and finely ground stone (ficonstone)

# cement & stone

## ficonstone

The cement collection is a small collection of our bestsellers featured with a special finish. The finish of the planters feels like a newly plastered wall. The smooth finish with uneven color shades gives the products in this collection a cool and contemporary look. The robust material ficonstone is suitable for both indoor and outdoor and can therefore be placed in any environment.

- Made of ficonstone (fiberglass, cement, sand and finely ground stone)

# Your products deserve the best maintenance

Keep your Pottery Pots planters in the best condition possible with our supporting Use & Care products. This range offers various products to maintain or upgrade your planters. All products can be used both indoor and outdoor when the Use & Care products are used correctly.\*

## IN GENERAL

1. Is there any damage caused to your planter?  
Easily touch it up with our **lacquer pen**.
2. Use the **maintenance oil** to preserve and enhance the surface of fiberstone black planters. The oil also protects against discoloration and simplifies maintenance.
3. Would you like to turn your planter into a pillar?  
Use one of our **toppers!**
4. Do not replace the planter after filling. The weight of the clay pebbles, the soil and the plant could cause damage to the planter.
5. Make your planters easy movable with **pot wheels**.

## FOR INDOOR USE

1. Cover the inside with a water-resistant **plastic pot insert** or use a **saucer** to collect excess water.
2. Put the planter in the right place.
3. Fill the planter with 1/3 of **clay pebbles** and 2/3 of **fertilized soil** and place the plant in the planter.

## FOR OUTDOOR USE

1. Drill holes in the bottom of the planter and cover these with mesh, to make sure the soil cannot clog the holes.
2. Put the planter in the right place.
3. Use **pot feet** to make sure that the planter does not directly make contact with the subsurface.
4. Fill the planter with 1/3 of **clay pebbles** and 2/3 of **fertilized soil** and place the plant in the planter.

Tip: place a piece of duct tape where you will drill the hole, to avoid the drill from slipping.
